

HEAVY RAINS A HELP TO RANGE

Heavier rains have fallen in the vicinity of El Paso during the last two weeks than ever before, according to R. Del Hickey, county tax collector, who returned Monday from a trip to Marfa.

On Tom Mitchell's ranch, Hickey said, recent rains filled a lake to a length of more than two miles and to almost the same width. Mitchell, he said, has lived on the ranch for 23 years and never before saw the lake filled.

Hickey said cattlemen are jubilant over prospects for better grass than ever before.

RAINS SOUTHWEST OF GLOBE BRING RELIEF TO STOCKMEN

Phoenix, Ariz., Aug. 24.—Heavy rains on the range of the Final section, southwest of Globe, have brought relief to stockmen, who until August had experienced the driest summer in two years, according to reports received by the weather bureau yesterday. During this month five inches of rain have fallen, the report said.

For the past 27 years, Miss Miranda Bales, 24 years old, has been employed in the same mill in Claremont, N. H.

MORE PHOSPHATE OR LOSE YOUR YOUTHFUL LOOKS

Lack of Phosphate in Blood and Nerve Cells Age Many People Before Their Time—See Current Report

The people who stand up and laugh at old, sultry weather are the ones who have plenty of phosphorus in their systems.

If you are weak, become played out early on a hot day; if you become irritated easily, lose your patience and cannot concentrate your mind on difficult problems, then you need Bittor's Phosphate, a pure organic phosphate that feeds your starving nerves just the food they need.

It is a simple matter that all modern physicians understand.

If you, man or woman, desire a sturdy virile body with an abundance of nerve force and endurance—if you want a keen, active mind that won't tire under severe strain, then you must have plenty of phosphorus in blood, nerve and bone cells and a pure organic phosphate known as Bittor's Phosphate is just what you need.

Get Bittor's Phosphate as dispensed by Coriell Drug Co. and all good druggists in the original package; it should revive your depressed spirits and renew your ambition. It should make you look younger and feel younger, physicians assert.

Bronchos And Bootlegging Do Not Mix Well

Prize money at a bucking broncho contest is uncertain, so to be on the safe side John W. Brown and John H. Collier, two bronco scratchers at the Tarrant county wild west show, during the past week, went into the bootlegging business on the side, according to prohibition officers.

They came to grief, however, when officers R. W. Walker and R. W. Bourne saw them making sales of the forbidden liquid to their cowboy friends. The two were arraigned before the United States commissioner at Tarrant county, who held them under bonds of \$1000 each to answer to the federal court.

ENGLAND LEADS IN IMPORT OF GOLD; FRANCE IS NEXT

Washington, D. C., Aug. 24.—Gold imports during the first ten days of this month, figures made public last night by the federal reserve board showing imports from that source of \$6,641,189. France, the only other European nation to export gold to the United States, sent \$476,502 in the same period.

Total imports of gold by the United States from all countries between August 1 and August 10, aggregated \$8,071,041. Exports during the same time were \$3,054,751.

Silver imports exceeded exports in the ten days covered by the figures. Imports of silver white metal amounted to \$1,411,014 against exports of \$1,014,382.

The adverse trade balance, however, are permitting European nations to take little of either gold or silver. Asiatic and South American countries are continuing to be heavy recipients of exports, both in gold and silver, from this country.

SOLD GUNS TO KING OF SIAM

Somewhere in the north of Burma is a wild elephant, running around with a Hotchkiss gun strapped to his back. This gun was taken to Siam, a nearby country, by Hugh Thomson, chief pharmacist's mate of the El Paso naval recruiting station when he went over there to sell guns to the Siam emperor.

How the elephant got loose and the gun got lost and how he nearly lost his life in the bargain was explained Tuesday noon at the weekly Siamership club luncheon at the chamber of commerce grill by Mr. Thomson. Tuesday was navy day at the club and the program was in charge of Lieut. H. H. Hupp, naval recruiting officer here. His office staff assisted him by putting on an enlistment stunt, showing "how the navy" is sold to young men.

The star feature was Mr. Thomson, who said that after he got out of the army and left his station in Arizona he got a job selling cannons. He had known the king of Siam as a seaman in the navy and when he was in Bangkok he was the best place to go. So he took a Hotchkiss gun he started in Asia.

At the parade grounds of the king Mr. Thomson was given a horse from Persia to ride. It was hard to manage and the horse came out of the horse's mouth and the parade ground was a mess.

There were 200 or more elephants, each bearing some foreign envoy or other notable. Mr. Thomson said he ran away with him and when just before the largest elephant stopped short and threw the speaker into the big parade ground. This started a stampede and all the elephants started running. The elephant too after Mr. Thomson.

He escaped by lying down in a ditch and the elephant skidded over. But it turned and started back. Then the El Pasoan skinned up a palm tree. The elephant butted down the tree, but when it fell a mouse ran out and frightened the elephant away. The speaker said. Later a quiet elephant was found and the big gun strapped on its back for target practice.

"Siamership" Commission.

Just as the gun was to be fired the elephant turned and the shot was a hole in the parade and frightened several dozen of the king's wives. Then the elephant ran away and was never found.

The program opened with a song by James C. Quinn and Edgar L. Fomery, both dressed as sailors. The navy man who sang the song was Lieut. H. H. Hupp, medical corps; Richard Fritz, chief gunner's mate; John Limburger, chief boatswain's mate; M. F. Brown, H. H. Hupp's mate, and Lieut. Hupp.

Robert Mullin presided.

WILBARGER COUNTY HIRES A MAN TO KILL PRAIRIE DOGS

Fort Worth, Texas, Aug. 24.—War has been declared on all prairie dogs within the confines of a certain lot of acres to Wilbarger county, Texas. The county commissioners at Vernon have awarded a contract to an expert poisoner to exterminate the prairie dog in that territory.

Before Texas was so little settled, natural enemies of the little animal kept him almost extinct. These animals were rattlesnakes, badgers and ferrets. But the incoming settler drove out all of those, making it possible for the prairie dogs to build their villages and multiply with impunity. Numerous villages have suddenly appeared on the edge of farming districts ever since the dogs have grown fat off man's crops until he has had to resort to campaigns of poisoning and extermination in order to thwart their destructiveness.
